

Green Night At the Library

The Morgantown Public Library
373 Spruce Street

Thursday, March 14, 2013
6:00–7:30pm

Make Your Backyard Wildlife Friendly

Spring is coming! Are you thinking about getting out in the yard again and making it an enjoyable place? How about also making that space friendly to your wildlife friends?

WVU Wildlife Biologist Sheldon Owen will help you think through some first steps.

Geared to adults and children alike, Owen will cover how to give native wild plants and animals what they need to thrive and avoid damage some can cause.

Join the Morgantown Green Team* at the downtown public library for a Green Night at the Library – on the first floor in front of the windows. Parking is available across the street.

Sheldon Owen is the Wildlife Extension Specialist for the West Virginia University Extension Service. He has worked extensively on various wildlife issues over his career and now promotes general wildlife ecology and wildlife habitat management in the Morgantown area and throughout West Virginia.

***The Morgantown Municipal Green Team** is a group of citizens that advises the City of Morgantown on matters relating to sustainability in public policy, planning, education, departmental management, development, and evaluation of environmental and energy-related issues.
