

Nov. 3, 2011 Green team,

Chris Haddox, Ella Belling, Pam Cubberly, Trevor Lloyd, Will Reilly, Rich Dennis, Steve Woodruff,

Brought to order by Chris Haddox

Minutes had a change, deletion of "reflectivity" after R40.

Added to agenda and discussed briefly: Hydroelectric dam issue coming up again. Companies looking again at retrofitting several dams on the river.

4. DOE has vehicle assessment tool. Web site in agenda. Rich has looked at site, Rich still looking at fleet report. Need to put together a presentation. Trevor indicated city looking at vehicle efficiencies, reducing numbers of vehicles. E.g. $\frac{3}{4}$ ton trucks doubling use for supervisors and for plowing. Will pointed out this doesn't reduce fuel costs, just numbers of vehicles. Suggestions were smaller vehicles plus trailers, biodiesel, proper blend of vehicles.

5. Street lighting: follow up meeting on LED lighting, First Energy has a demo project, expensive to install and maintain, have our own project on Grant Ave, report of cost \$25/six lights. Looking for another location in Morgantown. First Energy is to look again, don't have confidence in what they are not familiar with. This project would give them experience.

6. Livability solutions: Margaret Stout of WVU Public Administration faculty approached the City re: a grant for technical assistance around a variety of community issues. Asking for ideas from the green team. Green space, detailed energy use plan, traffic plan for high street, pedestrian mall; google livability solutions for more information.

7. Greenspace: Chris met with Bill Wonderlin on issue of Woodburn school site. Ron Justice is leading a team looking at site. Need a green team member on committee. Consensus is ask Bill to represent GT, Chris will ask.

8. Mid-Atlantic conference: On energy efficiency in building housing.

Mid-Atlantic Energy Efficient Building conference for Morgantown Nov 16-18 at the Waterfront Hotel. <http://www.energyefficientbuildingconference.org/> is web site, \$99 entry fee.

ICLEI Webinar. International Council for Local Environmental Initiatives at Dec 1 meeting in council chambers with group in Atlanta, Chris will pole members for good time, maybe in evening. <http://www.iclei.org/>

Meeting adjourned
